PROFILE

Front-End Developer with 7+ years of experience building scalable web applications using modern JavaScript frameworks. Strong foundation in TypeScript, ES6+, HTML5, CSS3, and automated testing. Experienced in collaborating across teams to deliver performant, maintainable, and user-friendly software.

WORK EXPERIENCE

2017-2025

RiskTech Ltd

Digital Cartographer and Frontend Developer

- Developed and maintained front-end features for dashboards and internal tools using JavaScript (ES6+), TypeScript, Vue.js, HTML5, and CSS3/Sass.
- Progressed from Digital Cartographer to Front-End Developer, mastering component-based architecture and building scalable UI systems.
- Built and documented reusable UI components and contributed to the maintenance of internal design systems and component libraries.
- Wrote unit and integration tests to ensure code quality and long-term maintainability.
- Used Bitbucket daily for version control and code collaboration in an Agile team environment.
- Created internal map editing and review tools, as well as a dashboard administration platform to manage data integrations.
- Collaborated with back-end engineers to integrate REST APIs into front-end workflows.
- Regularly participated in sprint planning, reviews, and retrospectives, following Scrum/Agile development practices.
- Used Webpack and modern bundling tools to optimize and ship production-ready front-end assets.

EDUCATION

2013-2015

BALLYFERMOT COLLEGE

- BA Honours in Visual Media - Games
- Served as Class Representative on the Student Council.
- Founded and led the college's tabletop role-playing club.

SKILLS
